

“I aspire to create classic designs with a twist that will remain forever elegant.”

Frederic Sage

Winner of many distinguished awards and a background in textile and jewelry design, acclaimed designer Frederic Sage brings you ever closer to the natural wonders of the oceans with his “Venus Collection” - aptly named after the goddess of beauty and love who was born of the sea.

Natural colors of Mother of Pearl and Abalone shell, from various parts of the world, are meticulously cut and set by hand in shades of gold with white diamond accents. This unique combination brings a graceful and feminine tonality to diamond jewelry.

With the modern woman in mind, Frederic Sage creates wearable works of art to be enjoyed everyday and worn to any occasion.
